

## Appendix C – 6-Lane Progression System

---

The 6-lane progression will be the preferred progression used at US National Team NSRs and Speed Order events.

For events with 2 or fewer entries, there will be no Time Trial, only a Final. In the case of late entries to those events, there will only be a Final. The Final will be seeded according to the order in which late entries are received.

The following shall constitute the forms of progression for six-lane racing:
